

# EcoFindr – Eco-Friendly Shopping Browser Extension

---

## Slide 1: Title Slide

### EcoFindr – Smart Eco-Friendly Shopping Assistant

A browser extension that helps users check sustainability scores of online products.

---

## Slide 2: Problem Statement

- Online shoppers cannot easily identify how eco-friendly a product is.
  - There is no quick sustainability rating on Amazon/Flipkart.
  - Greenwashing and misleading information confuse users.
- 

## Slide 3: Solution – EcoFindr

EcoFindr provides: - A real-time **EcoScore** badge on the top-right of product pages. - Detailed sustainability insights. - Automatic product parsing using a content script. - A clean, premium “Rolex-inspired” UI.

---

## Slide 4: Features

- ● Live EcoScore (0–100)
  - ● Auto-detection of Amazon & Flipkart product titles
  - ● AI-inspired rule-based scoring engine
  - ● Breakdown of positive & negative eco-factors
  - ● Pop-up with full sustainability report
  - ● Chrome Extension built using **Vite + React** + Manifest V3
- 

## Slide 5: How It Works

1. Content script loads on product page.
2. Extracts product title, features & description.
3. Passes text through rule-based eco-scoring engine.

4. Inserts a premium floating badge on the webpage.
  5. Saves information to Chrome storage.
  6. Popup UI fetches data & shows full report.
- 

## Slide 6: Tech Stack

- **Frontend:** React + Vite
  - **Chrome Extension:** Manifest V3
  - **Languages:** JavaScript, HTML, CSS
  - **Storage:** Chrome Local Storage
  - **Parser:** DOM-selectors for Amazon/Flipkart
- 

## Slide 7: Scoring Engine Rules

### Positive indicators (+ points)

- Recycled/Glass material
- Refillable / Bulk packaging
- Organic / Certified
- Recyclable packaging

### Negative indicators (- points)

- Plastic / PVC
  - Disposable / single-use
  - Electronics (high footprint)
  - Fast-fashion keywords
  - Global shipping indicators
- 

## Slide 8: UI Showcase

### Rolex-inspired design:

- Deep luxury green background
  - Metallic gold text + borders
  - Smooth rounded 22px badge
  - Modern modal-based popup interface
- 

## Slide 9: Demo Flow

1. Open Amazon/Flipkart product.

2. EcoScore badge appears automatically.
  3. Click badge → opens detailed report popup.
  4. Breakdown shows exact reasons for score.
  5. Compare eco-sustainability across products.
- 

## **Slide 10: Impact**

- Helps consumers make greener choices.
  - Encourages brands to mention sustainable practices.
  - Fast & lightweight tool for everyday shopping.
- 

## **Slide 11: Future Enhancements**

- AI-based NLP scoring using real ML model
  - Community-sourced eco-feedback
  - Score comparison between products
  - Automatic product classification
  - Browser support for Edge, Firefox
- 

## **Slide 12: Thank You**
